Book’s ISBN: 978-9949-30-043-3

DVD’s ISBN: 978-9949-30-584-1

Paramilitary groups connected to my illegal arrest by the police and NATO agents in Riga were posing as guests of the Tallinn hotel Radisson Blue, harassing me while I compiled files to be burnt. Similar type of sabotage took place the following two nights at the reception of the Tallinn hotel Forum; their photos below, staffers of both hotels and uniformed policemen participated.

Satellite torture also applied as I write now: nuclear technology used for hitting specific sectors of my brain. It is still not clear how many such satellites are implemented for continuous torment but the individuals involved, who evidently come from different countries, consciously participate in an extreme-right operation that has already included many selective assassinations and mass murders that strategically involve Israel and the Vatican, and which are partially financed by a multi-billion USA corporation, several large banks and the embezzlement of national and regional budgets. Often gangsters say: it is a martyrdom operation, less frequently that they want to neutralize fear (in me?). “Explanations” such as “you are under surveillance to prevent you from carrying out a suicide attack” or “religious fanaticism treatment” have also been ventured. First-level folders were created by thematic criteria. Do not underestimate messages sent to the Central Intelligence Agency, the Russian General Prosecutor’s Office, the Russian Ministry of Defence, embassies, presidents’ cabinets, the Communist Party of the Russian Federation and banks, although time is not explicitly declared. Videos taken by me of uniformed French military terrorists in front of/near the residence of the ambassador of Colombia to France prove the implication of the current Russian minister of defence, Mr Serdukov in the NATO invasion of Libya (and the assassination of Muammar Gaddafi, as part of a social architecture project). All photographed individuals participated in extreme-right paramilitarism, which demonstrates the widespread usage of illegal biotechnology; states are thus infected by the mafia and justice departments compromised.

No translations of either texts or recorded conversations offered.

Sample folders: Serdukov participation in Gaddafi's assassination↓

Notes:

1. Fax confirmations do not imply the messages were actually received, for example:

Russian General Prosecutor:

Senate Foreign Intelligence Committee:↓

FSB Border Troops↑

Chechen President:↓

KPRF→

2. Taping of sabotage may not have captured synthesized voice used to torture due to low frequency of signal. Audio file was recorded in the house of a Belgian Jewish psychiatrist/ psychologist who is possibly implicated in an "ETA" assassination and extreme-right groups' operations in Colombia.
3. AVT, the Spanish association of victims of terrorism has never been asked for information or support. "Spanish Judge Baltasar Garzon has been found guilty of illegally ordering the placement of wiretaps in a jail house to record conversations between inmates and their lawyers in a case of corruption. Such wiretaps under Spanish law are permitted only in cases of terrorism. Baltasar Garzon has been barred from the legal profession for 11 years. Recently more than 1500 Spanish openly criticised the influence of major political parties in the decisions of the Supreme Court Judicial Council". (Wiki citations)
4. Warnings that I was almost assassinated by the police and paramilitary (and that it can be proven) have been made.
5. Conversations with the CIA do not reveal their participation in terrorism.
6. Harassment after delivering package to the Chinese embassy in Brussels (below images) documented connection (through French-Israeli group in Basel, Switzerland) between the "accidental" bombing by

NATO of the Chinese embassy in Belgrade and the attack to the WTC/Pentagon. It may also imply current existence of serious rift in the Chinese Communist Party.

Nuclear satellite technology to scan and attack the brain was implemented in Leningrad, USSR (1987-1989). The same group is responsible for several assassinations and mass murders of Russian civilians on the territory of the Russian Federation before and since Vladimir Putin took over. Their operations appear to be run from Dresden, Germany and Paris, France; Cubans participate.
