Hola. Arribare a Moscú mañana por la noche. Hay un problema urgente con un satélite biotecnológico usado para torturar, y hay cubanos participando, tengo nombres y apellidos. Como les he repetido, el asesinato de la campesina ELVIRA CORTES es parte de la operación de susodichos bandidos. Pasare por la embajada a principios de la semana que viene con documentación. Hable con la oficina de prensa del ministro de defensa y con Jaime Bermudez me he comunicado por email. Por favor informen a María Ángela Holguín. Gracias.

Right now NONSTOP interference of MY laptop is happening (Coffee House, Chyornaya Rechka, 8:38 am, repeated "COMA" comments, man- woman voices technique).

CUBANS ARE PARTICIPATING, satellite used to hit brain/ eardrums, spinal cord, etc, NONSTOP.

I need to confirm FSB identity for they offered to drive me by car from Saint Petersburg to Moscow.

Please immediately contact FBI headquarters and try to identify satellite.

Thank you

Audio torture was used to distract and accomplish the theft. I filmed one of the criminals, Cubans are participating.

objet Online banking- Russian military

envoyé par gmail.com

These two employees of CoffeHouse located near Metro "Chyornaya Rechka" are severely interfering my laptop when I connect to SberBank online services.  
Internet connection terminated on purpose, woman wearing black sweater said: "connection will return in 15 minutes".  
Their Jew mafia colleagues are NONSTOP talking on top of locally played music, repeating words, using male- female voices as laptop and internet connection were tampered.  
They are linked to an operation dealing with foreign investments in Cuba and the killing of Italian tourist(s?).  
On top of all their international crimes they are using Russian uniformed military, for example uniformed officer walking by and above-mentioned woman says:  
  
"terrorist".  
  
I seriously doubt that the Russian military knows how they are being used by the international jewish mafia.  
A copy of this email will be sent to the FSB military counter- intelligence office.  
I have photos taken inside the bank, details (including names) of Cubans who are implicated in this operation.  
Also, I shall meet one of the assistants to the FSB director this week in Moscow.  
Proper preparations are on their way (by them and by me).

This woman in the photo is not only interfering my laptop while I access SBERBANK (online services) but also saying:

"problems" ... and clearing her throat (making car engine- like noises).

Her Jew mafia colleagues are filming and talking on top of the locally played music. Cafe Garcon, next to the Bank.

They are basically saying : "F\*CK YOU"

The other photo is about 800 meters from the FSB Sankt Pete building. The two men are of course jewish mafiosi possibly also in confrontation with the USA federal government (but who cares, they are just victims of international antisemitic prejudices). They were filming what I was writing and audio torturing on top of hotel music.

The CIA is being blamed for Jewish international terrorism (by Jewish terrorists). I went to the Swiss embassy in Riga this morning and teams near building were using satellite for nonstop torture.

A three men group, one from Philippines, another one from Viet Nam were among the criminals coordinated by what it seems to be a military NAVY satellite which is attacking directly internal organs and the brain. Other police – supported "civilians" go as far as threatening me.

It is difficult to determine their nationalities (Russian, Latvian, Byelorussian, Ukrainian, etc). The two photographed Jewesses were at a supermarket, where torture was applied.

**I have names of Cubans implicated. It is a highly dangerous group. I insist stern measures be taken immediately, absence of which will put me in a very difficult position.**

In Paris I have filmed and photographed Jewish paramilitary groups using same technique (attacking brain and legs, German minister of finances team), material available.

At Viktoria hotel gangsters continue buzzing my ears and head to disrupt sleep. Several civilians are confirming brain scanning and torture (warnings, denunciations).

P.S.:  
Bandits were interfering my laptop and talking on local audio as I work, barman implicated, third and fourth photos.
