Jewish groups continue sabotaging communications, including woman in photo (she is interfering MY laptop, her colleagues are talking at the same time over local audio). Camera seen over woman's head is not playing a role, they are using much more sophisticated technology to torture.

Hello:

I was supposed to call you this afternoon at two o'clock Moscow time.  
Gangsters have continued attacking my brain and internal organs, sabotaging telecommunications and interfering my laptop.  
It is done by mostly right wing Jewish groups supported by the police, photos available.  
The people in some of the attached pictures were interfering my laptop around 2:00 pm AGAIN at Swedbank MAMO's cafe, most of them are Swedbank employees, clear paramilitary operations involving even bank clerk to whom I have spoken.  
I will try to reach you in a few minutes.  
Thank you for any help,

M. Pedroso Artime

There were americans sabotaging the laptop I used to call you.  
Also the police is interfering it and talking on the audio of the cafe where I am using the internet connection. I filmed the "costumers".  
The situation is urgent.  
I have contacted the european court of human rights, the FBI, and other people/ organizations in USA/ Europe. There is a real danger of being killed by the police/ paramilitary groups.  
For some years the french police and military have been committing terrorism in several countries, which is covered up by the media and police/ justice department.  
Recently committed assassinations and mass murders have had the support of the french minister of interior now the president of france.  
Supra national interests are financing international terrorism and lobbying at presidential level in Germany, France, Russia and the United States. I am talking about proven facts, the proofs you can receive.  
Several embassies in Paris have diplomats who can confirm (military/security officers also).  
Inselmann? I believe is the journalist I spoke to in Hamburg.  
Germans have been also killed and terrorism has been committed by french citizens from germany (americans and germans participated as well)  
Sincerely,  
M. Pedroso

Mr Rauss:  
I am staying at a hotel where the police and paramilitary groups are targeting me with constant audio/ laser sabotage, you will see it in the videos. Last night the sabotage was particularly intense, at 600 am I still have not been able to go to sleep.  
I am filming the bandits who are using high technology to cause "traceless" physiological damage.  
It seems to be also intended to cut off communications with journalists in Hamburg, not particularly your magazine.  
Sincerely,  
Mario  
P.S.  
A copy of the official complaint to the European Court of Human Rights is included in the envelope.  
Jewish activists were yesterday and today near the DHL office on Rue Feydeau targeting the sending; I filmed them.

Hello Mr. Rauss:

After below email I did send you the material (booklet and DVD'S) to Hamburg and I have a signature copy when it was received by Stern.  
Please talk about this with your redaction. I called last night the New York Times, Washington Post and a Harvard Law School professor. Material is concrete and lean, deals with a satellite (Vladimir Putin's operation), NATO, and French paramilitary terrorism from Paris.  
I met high officers of the military in Moscow (Russian and a Colombian General at the Colombian embassy) and members of the Russian communist party.  
Cubans implicated in torture (in Russia) seem to be working for Israeli services/ mafia/ company (EMC Co) although they may be using Russian military equipment.  
They act with no friction from law enforcement agencies in several countries, therefore no criminal investigation is likely to be launched in the near future.  
One of the French terrorists was in Germany, Virginie Ruiz, please refer to the material in your possession.  
Thank you for any real help,

At this very moment two Jewesses who are working for Swedbank in Tallinn are sitting nearby and interfering my laptop, hinting at conversation with colonel at the Central Military Prosecutor's Office (the man photographed also interfering my laptop).  
**Who is leaking the information I do not know, but it is someone in Russia (FSB- military).**  
Other Jew gangsters are filming the cafe and talking NONSTOP over local music using male- female voices.  
What is more important than the sabotage of these устраняемые сволочи is:

I talked to the New York Times yesterday. More confirmations given of Cornell University participation in satellite operations against Russia.  
A law professor at Harvard also contacted, he had advised me before to contact Richard Falk at the United Nations (Special Rapporteur for Palestinians who was recently arrested and expelled from Israel).

Jewish groups continue attacking brain NONSTOP. They are filming the apartment where I stay (room shared with woman who has two jobs: "distributing newspapers at 430 am and newspaper- media center dealing with costumers") and attacking brain, talking over mp4 player repeating:

The gangsters are OUT OF CONTROL, EMC Co - Cornell University.  
Immediate severe measures against the Mafia must be taken.

I talked to a Ukrainian diplomat in Brussels about a torture and sabotage operation carried out by French paramilitary groups from Paris in which civilians are being killed.  
Recently I returned from Moscow and Sankt Pete where I met politicians and military officers. All information he received and transmitted to Kiev is достоверная.  
The satellite was attacking me on Russian territory, I can show in a map specific locations.  
Again it is a Jewish operation, because the number of Jews who are using illegal snooping and long distance torture technology and their presence in Russian banks in military and paramilitary context.  
Several Cubans living in Saint Petersburg and Moscow are foreign agents linked to Israel. Information included in following emails.  
I need executive power and a certain amount of immunity because only violence will stop the gangsters that also have interests in Cuba.  
Vladimir Putin is directly implicated and guilty of high treason.  
The second day I was in Russia he made a visit to Sankt Pete, visited a hospital, photos of mother/ child used repeatedly by activists, death of former Prime minister Виктор Черномырдин while I was in Narva.  
He из чувства неприязни: his political career has to come to an end because of the level of уязвимости he has helped create to foreign military and paramilitary terrorism against civilians on Russian territory.  
I had met a member of the Latvian mission to NATO in NATO HQ (Satellite was used near NATO HQ targeting Cuba in a Georgian-Russian war frame) and afterward I talked to the FSB at the Terekhovo- Burachki point. Conversations with officers, including Major second in command, reaffirmed necessity of meeting head of Russian military counter intelligence, in which I failed despite repeated requests.  
The problem goes back to Tampa 1992, Norman Schwarzkopf, and Cuban supported extreme right groups that infected the Soviet Union and now Russia.  
I met Iraqi and Afghan embassy personnel in Paris and Brussels, confirmations given.  
The following 23 emails are NOT SPAM.  
The mobile phone of the diplomat is:  
0475789024, Viktorovitch  
Please help ASAP, consider use of military commando.

Mr. Melnikov:

Several crimes on Russian territory have been planned from abroad with support in Russia from concrete individuals. After conversation with members of the KPRF in Saint Petersburg I would like to send you information on the role of foreign military and the use of a bio technology satellite (system). I contacted the Ukrainian embassy in Brussels this morning by telephone and during the weekend they received a copy of the 23 emails that I will send you next. I had met a diplomat inside the Ukrainian embassy in Brussels. After the meeting I sent the embassy a warning triggered by a neighbor's mimicking the diplomat from across street apartment. It concerns the KPRF for these reasons:

1. Attacks to the brain (and brain imagery techniques) and internal organs can be used against leaders of the KPRF
2. Cubans are participating in the attacks (including members of the Cuban government and USA exiles)
3. An American company is implicated (EMC Co).
4. Former foreign students in Moscow and Leningrad are implicated
5. French military- French police, French paramilitary operations targeting Russia and Latin America

Therefore following emails are not intended as SPAM. I am trying to reach high officers of the FSB (military counter intelligence) by telephone which in itself is risky, to arrange a personal meeting in Moscow (knowing as little as possible about to whom I talk to avoid future difficulties). Thank you for your help,

There is a problem with French military right wing groups in Paris implicated in international terrorism and torture with the support of the french police. Following emails describe operations of torture and terrorism. EMC Co (based in Hopkinton, MA) is involved, using the Saint Petersburg Polytechnic University and the KPRF (Russian communist party) city offices. Last night Jewish gangsters continued attacking my brain. Signal penetrates skull causing severe pain. At the same time they are using microwaves to buzz ears, in other words, a NONSTOP torture operation designed to conceal the role of Sarkozy- French military in international terrorism.

There are precedents of this type of Mafia operations using the state.  
The European Court of Human Rights received a petition to open a case Pedroso VS France.  
Right now the bandits, who are linked and apparently controlled for Paris, are interfering my laptop and torturing by talking in low volume (using male and female voices) over the music played at cafe Reval, Tallinn.  
The woman in the photo is taking active participation, I encourage you to take concrete measures against the Mafia.  
The 22 emails following this one contain attachments such as a letter to the CIA, faxes to the Moscow Central Military Prosecutor's office, Spanish military attache and other.  
I will call you on Monday morning as agreed.  
Thank you for your help.

Jewish gangsters linked to Cornell University continue NONSTOP torture.  
As i practice piano they are talking over piano audio system, talking over local audio and the two women in the photo repeating:  
"bravo!- terrorist", "terrorist- coma", "coma", "embolia", "invasion", light in the ceiling flickered and dimmed, etc.  
The cafe staff is giving them cover. After more than one hour of NONSTOP torture the two women were ordered to leave by their colleagues as soon as i took the laptop out of its case.  
When torturing the gangsters use male and female voices.  
This is partially financed by taxes, severe punishment measures coming, the police must be warned NOT to get involved.  
Cafe address:

Treff - Teatri Puhvet  
Teatri Vaaljak 3, Tallinn.

I contacted the NRO from here and an English speaking "civilian" came right after the conversation and started to provoke a confrontation.  
I am contacting other agencies.

At this moment Jewish gangsters are interfering my laptop and talking over the audio of the cafe where I use wifi.

A few days ago I contacted by telephone the NRO (USA agency dealing with satellite and CIA/ military) to complain about satellite biotechnology torture and sabotage carried by Jewish mafiosi against me for over three years. I met personally diplomats of Libya in Copenhagen in 2004. As you know the Libyan embassy was closed in connection with a publication of caricatures by Danish media (I don't know all details) and now they are again functioning. Regarding French military's participation in international terrorism and torture and their use of the Libyan embassy in Copenhagen (well documented) I contacted again your Danish embassy this week. I mailed them information (email) which they confirmed having received but they could not mentioned the names of the two diplomats I met, advising me to contact the foreign ministry in Tripoli. The Foreign affairs ministry website is only in Arabic and I could not find either a phone number or an email address to send my query. A half Danish half Libyan embassy secretary at that time was SAMI ENDORET. He could name the diplomats but your Danish embassy did not have his contact information either. Frankly speaking, it is a well organized French military covert operation which Sarkozy used during and right after the French presidential elections. International banking and repeated attacks on Russian civilians are being roofed under "terrorism prevention", but the screen is so faint that even USA Federal agencies wont bite it. Please send my information to Tripoli and ask them to assist me in identifying who the gangsters that operate the satellite are exactly. Thank you,

M. Pedroso Artime

As i mentioned to you I had another meeting in Sankt Peterburg with a Publishing company. I will send copies of this information to other publishing companies. If only by the intensity of the torture and sabotage to which I am constantly subject, the information MAY indeed be essential. ## URGENT

Ms. Ségolène Royal:

Recently I was in Russia where I spoke to members of the Russian communist party in Saint Petersburg and very briefly in Moscow. Satellite technology was used to disrupt conversation, specifically when I asked a member of the Legislative Committee if he knew any relation between Mr. Genady Zyuganov and you (the answer was: "I do not know"). Satellite technology means in this case direct attack to the brain while the conversation was taking place, I can give you more details but not by email. I also met high officers of the Russian military Prosecutor's office regarding international terrorism against Russian civilians that has been SYSTEMATICALLY committed with the support of the French military from Paris. The possibility that members of the FSB and other Russian security agencies are implicated is not excluded.

Members of the Cuban embassy in France and Cubans living in Paris at the moment participate in torture and terrorism. I have concrete names and addresses.

More alarming is the fact that several French police officers in Paris and Cergy Pontoise are part of the terrorist /torture group.

The following 22 emails are an introduction to the problem, which deals with Sarkozy's "election" (Belorussian embassy in France- Belorussian citizen in Paris).

I understand you need more details in order to take measures but perhaps you have an additional source of information that can confirm what I say.

Your security may be at stake. I informed the Russian embassy in Paris about it a couple of years ago. I have videos taken on the corner of Rue de Lourmel and Rue Rouelle/ Fondary showing the situation/ people.

An American company implicated (EMC Co).

Thank you, do not hesitate to contact me.

M. Pedroso Artime

P.S.:

On the eve of the bombs that hit the Moscow Metro I contacted the FSB hotline from Brussels. You were on TV, as I understood, during a live talk show. The team that prepared the attacks had a close circuit cameras system at the apartment where I was staying and your presence on TV may have been used for the attacks.

I just tried the website of the Libya foreign ministry and it is in arabic with no translation. I would need a telephone in Tripoli to find the diplomats I spoke to in 2004.

Hello again:

Torture and sabotage continued last night and this morning. With the information you will receive I am contacting the General Prosecutor offices of Russia, Kazakhstan and Belarus, in all cases there are (were) people in Massachusetts implicated (oil industry). Right now the gangsters are interfering my laptop and talking on top of the local audio, it is the same cafe where I was last night. Due to heavy interference of phone calls I need to record some conversations in order to verify I am talking to the right people. During the day I will send you 22 emails with attachments. Punishment for terrorism and torture shall be severe.
